- Consolidation of multiple fixed subgrants
- FEMA validation of sub-recipient-provided estimates (prior to acceptance)
- Elimination of reduced eligible funding for alternative projects (90% clause)
- Use of excess funds
- Review of estimates by an expert panel for projects with Fed. Share \geq \$5 million (prior to acceptance)

Permanent Work Pilot Program

Opportunities

- *Cost underruns* - may be used for FEMA approved activities that reduce the risk of damage from future disasters
- *Participation* - can be on a project-by-project basis

Potential Risks

- *Timeline* - FEMA, the subgrantee, and the grantee must agree on the eligible disaster damage and scope before completing the cost estimate
- *Cost Overruns* - If the approved fixed estimate is less than actual costs, FEMA will not approved additional funds
- *Direct Administrative Costs* – Are considered part of the overall estimate, and no additional DAC will be considered at closeout of a project
